

Our Commitment

Sandfire is committed to the responsible management and protection of the natural environment at all stages of its business from exploration through to closure and rehabilitation. Sandfire aims to manage its use of natural resources in a way that demonstrates environmental stewardship.

We are committed to maintaining the highest level of integrity in our responsibilities toward resource development and the environment.

How we demonstrate our commitment

Sandfire aims to operate responsibly and demonstrate environmental stewardship by:

- complying with all applicable laws, regulations and commitments
- promoting environmental leading practice in our business activities
- identifying, monitoring, managing and reporting on the environmental aspects of our business to create long term sustainability
- having effective environmental management systems which enable us to manage, mitigate and report on risk
- supporting an environmentally responsible culture
- striving to continually improve the efficient and responsible use of natural resources
- managing air emissions, waste generation, and pollution created as a result of our activities
- efficiently managing our energy use and looking for opportunities to use renewable energy or low carbon solutions to reduce our greenhouse gas emissions where possible
- respecting climate change as a global issue and participating in solutions that address the impacts of climate change
- recognising water scarcity across the world and the imperative to demonstrate strong water management by using this resource responsibly and efficiently
- continuously employing responsible tailings management to minimise the risk of failures
- protecting biodiversity by considering ecological values
- integrating mine closure and progressive rehabilitation into the life-cycle of our operations to effectively address our environmental legacies and promote a safe, stable, non-polluting, self-sustaining agreed end land use
- promoting an ongoing environmental dialogue by understanding, engaging and acknowledging the values and expectations of all stakeholders regarding the development, operation and closure aspects of our business.

Responsibility and accountability

Environmental stewardship is the responsibility of everyone engaged in activities by Sandfire and this policy applies to all employees, directors, officers, consultants and contractors of Sandfire and its subsidiaries.

The CEO of Sandfire is accountable to the Board for ensuring that this policy is implemented and adhered to.

This policy will be reviewed May 2021.

KARL SIMICH

Chief Executive Officer
